Sanjeev Kumar

Software Engineer

+91 9155062633 | sanjeev77830@gmail.com | www.linkedin.com/Sanjeev-Kumar

SKILLS

- **Programming Language:** JavaScript,TypeScript
- **Technologies & Tools:** ReactJs,NextJs,Redux, Zustand,ReduxToolKit,Axios,HTML,CSS,Tailwind,Bootstrap

EXPERIENCE

Software Engineer   Oct 2022 – Present
Tata Consultancy Services   *Kolkata, West Bengal,India*

EDUCATION

Aryabhatta Knowledge University   Patna, Bihar, India
B.Tech in Computer Science and Engineering , Secured an aggregate of 8.38 CGPA   *Aug. 2018 - Aug 2022*

PROJECT WORK

Jazeera Airways (Mar 2025 – Present)

- Developing a scalable and responsive UI components using Next.js for a comprehensive hotel management platform
- CRUD operations: Create, Read, Update, and Delete employee data via API calls
- Utilized Zustand for efficient state management across complex data flows and dynamic user interactions.
- Used many Resuable components to accelerate development and ensure a consistent design system.
- Participated in sprint planning, daily stand-ups, and retrospective meetings, ensuring timely delivery of features and bug fixes.

Whitbred Co-Pilot (Dec 2024 – Mar 2025)

- Developed scalable and responsive UI components using React.js for a comprehensive hotel management platform
- CRUD operations: Create, Read, Update, and Delete employee data via API calls
- Utilized Redux for efficient state management across complex data flows and dynamic user interactions.
- Integrated RSuite components to accelerate development and ensure a consistent design system.
- Collaborated closely with backend teams to consume REST APIs and display real-time data for bookings, room availability, and guest management.

Tata Steel Europe Ltd.(Oct 2022 – Nov 2024)

- Developed and maintained responsive user interfaces for web applications used by TATA Steel Europe teams in the UK and Netherlands.
- Translated UI/UX designs into high-quality code using HTML, CSS, JavaScript, and Bootstrap.
- Ensured cross-browser compatibility and mobile responsiveness for all frontend components.
- Participated in code reviews, bug fixing, and performance optimization activities.
- Developed and maintained unit test cases to ensure code quality and reliability
- Followed Agile methodology and contributed to sprint planning, daily stand-ups, and sprint retrospectives.
